SEE LIFE
MORE CLEARLY

THE BEST IN ACRYLIC

Several acrylic companies are out there, all with different processes, suppliers, or proprietary fabrication. It can be hard or worse—time-consuming—to figure out what is the best fit for you. As a business familiar with these nuances, we want to share the wisdom and expertise we’ve gained over the 60 collective years we’ve been in this industry.

It’s simple, really.

We source exclusive acrylic that is the best in the industry and installs it with our highly seasoned technicians to give you and your clients the best acrylic experience, hands down.

Elevate your pool, aquarium, or exhibit with clear, beautiful acrylic that can become your project’s focal point and simply allow people to see life more clearly.

WHAT YOU CAN EXPECT

- We **specialize in swimming pool windows** and working with pool builders.
- We pride ourselves on being **competitive in price. If you provide another bid, we will beat it every time.** That’s our promise to you.
- Centrally located in Dallas, Texas, we are **the Midwest’s only supply and installation company.** Our location gives you minimized travel fees for installations and more manageable pricing than companies on the East and West Coasts.
- We understand budget constraints with clients and designers and are **experts at determining a price that fits your budget.** In short, we will make it happen if you give us a targeted budget for a window.
- We **provide detailed construction drawings** that help builders and architects work through the details of the installation process.
- Our panels are **proudly produced in The Lone Star State.**
- We have **short fabrication and installation lead times** and **labor available 24/7.**
- **We are on time every time.**

This design allows the homeowner to open the living room doors and walk into the outside patio, which feels like a natural extension of the indoor living space. To deliver on the promise of a “comfortable place to enjoy a glass of wine,” the left side of the yard steps down 18 inches to an intimate fire-pit area providing a dramatic grand reveal of the signature acrylic panel.

Brilliantly celebrating this compact space with sophisticated design, custom laser-cut metal panels sparkle with light as they pattern the recta-linear pool with timeless landscape architecture. The spa smoothly spills into the pool, creating an open design while guests enjoy relaxing and reflecting on the beauty within the sculptures that surround it.

When looking at all the penthouse suites in the building, they were all sterile and cold, lacking the invitation to escape and enjoy the breathtaking view of Downtown Dallas. We decided it would be essential to complement the glass skyline with an acrylic framed pool, bringing in some natural textures, tones, and plants to draw people into the balcony.

The curved tanning area is an excellent complement to the acrylic pool in materials and structure—angles and curves play well together in this space and give this penthouse suite stunning views upon stunning views.

This pool features a waterfall that continuously cascades across the entire width of its 30-foot acrylic wall, disappearing into smooth river rock.

A wall of fire backdrops the entire rear edge adding dimension and drama. A raised spa provides a pleasing visual seen from the dining area.

MEET NICK HAUK

Nick—co-founder of Elemental Acrylic—started in the pool industry at age 15 and is a third-generation pool builder.

He has an entrepreneurial spirit and has seen the need to help builders source premium acrylic panels—hence, Elemental Acrylic was born. Nick has extensive knowledge of aquatic design and specifically in the residential and commercial swimming pool industry.

Because of his extensive knowledge in the pool industry, Nick can solve almost every problem that comes his way. He understands budget constraints and the importance of being on time—especially with all the people and elements involved in such robust project executions.

You'll find him outdoors in his free time with his best buddy (and dog), Frank.
